ABSTRACT

This project is all about software technologies and respective courses. As technologies are developing very quickly this will be very helpful for the ones who are interested and craving towards wisdom. This website will display details of various technologies and related courses in their selective fields for those who are interested. These courses will be explained by highly qualified lecturers who are specially trained in their respective specializations. The process of applying these courses is very simple that one can make a course of their own choice.

DESCRIPTION

Here, in this website there will be a home page where you can surf for different technologies. You can also select multiple courses if you are interested. Once you are done with the selection click on the apply course button in the respective field. Now you will be moved to a page where you can fill your application for your selected course. You can also sign in to the website for getting notifications and alerts related to the content you are seeking for.

MODULES

- ✎ Home page
- ✎ Register page
- ✎ Login page
- ✎ Sign up
- ✎ Multiple Course detailed pages

REQUIREMENTS

- ✎ Notepad
- ✎ Browser
